JW JAKOB & WIENMEIER
Industrietechnik GmbH

Välkommen till världens största förpackningsmessa. Besök våra leverantörer och se den senaste tekniska utvecklingen på Interpack 2011

Vi ser fram emot att träffa er i Düsseldorf.

Boka ert möte med oss på Interpack redan idag.

Ring oss på +46 31 701 0990 eller skicka e-post till:
jan.johannesson@gotapack.se, martin@gotapack.se

FETTE

New generation of tablet press to be launched during Interpack

The successful i-generation will be shown as well in the versions 1200i, 2090i and 3090i with all peripheral equipment.

LB BOHLE

BCG - Synchronous twin-screw extruder with continuous dryer.

KOCO - semicontinuous coater.

BFC 5 - Film Coater

BFS 3 - Fluid Bed System

BTS Bohle Turbo Sieve

BCK 200 Containment System

CPA 2-1 particle size analyzer

KA Tablet Checker.

Compact Unit - A

combination of a high-shear mixer and fluid bed dryer, side

by side, complete with integrated sieving.

Datum:

12-18 maj 2011

Öppettider:

10:00-18:00 dagligen

PLÜMAT

FFS 3000 with for production, filling and closing of flexible bags.

SFC port system

BFM 007-4 Semi automatic liquid filling unit to fill and seal both single and multi-chamber bags.

PESTER

A complete end of line including PEWOPack 250 compact, PEWOPack 450 compact and PEWOForm UVP3 for pharma cartons.

A singleTLC2 unit for pharma bottles.

A fully overwrap C60 for cosmetic cartons.

RUDOLF DECKERT

AVR 200 Capper with Cremer CF 1620*2 tablet counter.

DTS 1000 Topserter

Deckert star wheel machine with tare- and cross-weighing system integrated

CREMER

CF-622 – The brand new servo driven and servo controlled module for up to 50 pbm at 100 count.

CF-622x2 – A dual modular counting system displayed with a return system for continuous running demonstration.

CF-622x4 – A quad modular counting system to realize outputs up to 300 bpm.

CF-1220 - The proven counting system for the pharmaceutical industry.

GRONINGER PHARMA

Syringe processing

Fully automatic production line for presterilized syringes in nests

Vial processing

Fully automatic production line for vials

**Production system for clinical trials,
small batches**

Datum:

12-18 maj 2011

GRONINGER COSMETIC

Bottle processing

High flexible linear production line
for processing of all different bottles

– high-performance and efficient

Filling and closing machine, Type
MFCS QL.

The flexible, linear modular design enables conversion for a different product
in just a few minutes.

SEIDENADER

MS - High speed inspection of parenterals in cartridges, vials and ampules
for mid size production environment.

RIM - Flexible robot supported inspection solution for pharmaceutical
products in small batches.

V90 AVSB - Semi automatic particle inspection for visual control of
cartridges, vials, ampules and syringes.

T&T SingleUnit-TE/LA Machine for serializing the smallest saleable package,
including tamper evidence and label applicator.

T&T Case - Case station for serializing bundled boxes within the track and
trace process.

HSA - Head space analyzer for leak testing

HVLD - High voltage leak detection

BIM - Automatic inspection machine to detect defects and particles in
flexible containers and IV bags

JAKOB & WIENMEIER

CCM-AV-90 new vertical cartoning machine for up to 90 cpm.

CCM-AH-6-600 horizontal cartoner

CCM-AV-10-800 vertical cartoning machine with both tuck in- and hot glue
closure.
